Ethiopian New Year (Enqutatash)

Ethiopia still retains the Julian calendar, in which the year is divided into 12 months of 30 days each and a 13th month of 5 days and 6 days in leap year. The Ethiopian calendar is 8 years behind the Gregorian calendar from January to September and 7 years behind between September 11 and January 8.

Enqutatash means the "gift of jewels". When the famous Queen of Sheba returned from her expensive jaunt to visit King Solomon in Jerusalem, her chiefs welcomed her by replenishing her treasury with jewels. The spring festival has been celebrated since these early times and as the rains come to their abrupt end, dancing and singing can be heard at every village in the green countryside.

But Enqutatash is not exclusively a religious holiday. Today's Enqutatash is also the season for exchanging formal New Year greetings and cards among the urban sophisticated - in lieu of the traditional bouquet of flowers.

Finding of the True Cross (Meskel)

Meskel has been celebrated in the country for over 1600 years. The word actually means "cross" and the feast commemorates the discovery of the cross upon which Jesus was crucified, by the Empress Helena, the mother of Constantine the Great. The original event took place on 19 March 326AD. But the feast is now celebrated on 27 September.

Many of the rites observed throughout the festival are said to be directly connected to the legend of Empress Helena. On the eve of Meskal, tall branches are tied together and yellow daisies, popularly called Meskel Flowers, are placed at the top. During the night those branches are gathered together in front of the compound gates and ignited - This symbolizes the actions of the Empress who, when no one would show the Holy Sepulcher, lit incense and prayed for help. Where the smoke drifted, she dug and found three roses. To one of the three, on the True Cross of Jesus, many miracles were attributed.
